- 3. **List View** 6
- 4. **Pivot View** 8

1. Overview

The Inspection costs manager provides two alternative views of inspection costs: a list view and a pivot (cross tab) view.

The inspection costs list view is intended to facilitate a review of inspection costs with invoice date, amount and description.

The inspection costs pivot view provides a summary of costs by vessel and inspecting company.

Each of the above views include a drop down vessel selector to facilitate filtering of the information by all vessels or a single vessel.

2. Feature Summary

List View Pivot View

The inspection costs manager list view provides a list orientated display of all inspection costs grouped by vessel.

The list view includes columns displaying the name of the vessel, invoice date, reference number, invoice amount, invoice currency, accounts amount (after conversion to local currency) and description.

List View Pivot View

The inspection costs pivot view provides a cross tab summary of all costs for each vessel by inspecting company (oil major). Vessels are grouped by fleet name.

Grand totals of costs are shown for each inspecting company, each vessel and each fleet
