1. Overview

The Inspections diary manager provides a timeline or calendar orientated view of inspections with inspection date and a 6 month nominal validity period with colour coding of each inspection status.

The inspection diary manager include a drop down vessel selector to facilitate filtering of the information by all vessels or a single vessel.

Timeline view of inspection dates and 6 month validity period

✓

3. Timeline View

The inspection diary timeline view provides a calendar orientated view of all previous and pending inspections for each vessel for the current year and two years prior.

Each inspection is displayed as a bar with the inspection date and a nominal 6 month validity period.

The status of each inspection (days remaining of the 6 month validity period or expired) is shown colour coded.

The current date is shown as a vertical blue bar.
